IB-100
Internet I/O Board

Simple low-cost web enabled I/O for remote monitoring and control

i.CanDoIt® Internet I/O Board

Control Solutions' **IB-100 Internet I/O Board** packs a "best of" collection of web enabled features from the *i.CanDoIt* family into a tiny, low-cost, stick-it-anywhere box.

Model IB-100 includes powerful web based features, including:
• Web based configuration and monitoring
• Template rule generation for traps, emails, output triggers
• Data trending with automatic graph generation
• Email notification of events
• Programmable with Script Basic
• Web client ready to connect to LogMyData.com
• Modbus TCP client and server concurrently
• Integral web server with Flash file system
• User designed web pages with CGI access to data points
• SNMP v2 agent for Get/Set access to data points
• SNMP trap generation based on rules
• Template rule generation for traps, emails, output triggers
• Dynamic DNS support
• DNS host lookup, DHCP
• FTP data file access & firmware upgrades

• Remote Monitoring and Control
• Stand-Alone Alarm Responses

FEATURES of *Model IB-100*

• Web based configuration & operation
• Ethernet 10/100BaseT protocol support
      HTTP • Modbus TCP • SNMP
• User web pages
• email event notifications
• HTTP client data logging capable
• Programmable using Script Basic
• 8 Analog/universal inputs, jumper configurable
      • 0-10VDC, Thermistor, dry contact
      • 10-bit resolution
• 2 Discrete outputs
      • Open drain FET, current sink 1A @ 24VDC
• Powered by 18-30VDC (0.15A @ 24VDC)
• 38mm H x 52mm W x 103mm D
• Industrial hook and loop self-stick mounting
• Operating temperature -40°C to +85°C
• Humidity 5% to 90% non-condensing
• FCC Class B, CE Mark

IB-100
## Internet I/O Board

CONTROL SOLUTIONS MINNESOTA

i.CanDoIt® Internet I/O Board

Control Solutions' *i.CanDoIt® Model IB-100* packs a tiny package with the most commonly used capabilities in our growing family of popular web appliances.

Funtions:
• Remote Monitoring & Alarms
• Event Notification via SNMP traps or email
• User Programmable Control Algorithms
• User Programmable Web Pages
• Web Based Remote Monitoring via LogMyData.com

i.Board includes a 24VDC power supply with international plug set.

Use optically isolated solid state relays to interface the IB-100 to high voltage equipment.

The *i.CanDoIt® Internet I/O Board* is available now. Visit www.csimn.com for more information, a guided tour of the web server, and an online demo copy of the entire web site contained in the *Model IB-100*.
